Profile

Hardworking and motivated Livestock Technician with a National Vocational Certificate Level 3 in Livestock Production and a background in livestock husbandry. I have experience working with animals, including feeding, handling, providing care and assisting with daily farm task. I am a responsible and caring individual who is willing to learn and provide proper care for animals.

Work Experience

- Feb 2024 – Dec 2024
Gobabis State Veterinary Office
Livestock Production (Intern)
Assisted senior veterinarians with daily veterinary and livestock-related activities, including animal handling, livestock inspections, health monitoring, record keeping, and general animal care. Gained experience working with livestock, assisting with animal care, disease prevention, and handling animals while following proper safety practices.
- Jan 2025 – Present
Government Farm – Otjozondjupa Region
Livestock Technician
Responsible for supporting daily livestock production activities, including animal feeding, handling, health monitoring, breeding activities and record keeping. I ensure that animals are properly and following farm procedures.
